A QUICK N' EASY HOW-TO GLAMPING GUIDE

TO THE VINTAGES TRAILER RESORT

Staying Warm		There is a wall heater in the trailer to keep you warm. Each one is set by our team to be at an ideal temperature prior to your arrival. If you would like to adjust the temperature, we recommend making only slight changes as drastic changes will cause a delay when returning to a temperate setting. For larger trailers, additional heaters can be found in a closet or cabinet.
Keeping Cool		Please do not leave the trailer with the air conditioner on the maximum cool setting. It will eventually freeze and will then need to defrost before it can work again. Leaving it below the maximum level will maintain a cool temperature without freezing up the system.
Shower + Toilet		The trailer water heaters hold enough water for speedy hot showers. For longer, hot showers, shower facilities are located adjacent to the pool. Additionally, most toilets are flushed with a foot pedal. Hold the pedal down halfway to add water to the toilet, then hold it down all the way to flush.
Television		All of our televisions have access to streaming applications. If you would like to use an application such as Netflix or Amazon Prime Video, you are welcome to use your own credentials - just be sure to log out before you check out!
Grilling		The stoves in the trailers are non-functioning. For safety purposes, we are required to disable all propane within the trailers. In true glamping spirit, outdoor BBQ grills are provided for use. When operating, please be sure to turn on the propane slowly before lighting the grill with the igniter button.
Fireside		Fireside is for guests ages 21+. Our firepits are lit at sunset (weather permitting) and are turned off at 7 PM. Since adult beverages are allowed in this area, children are strictly prohibited. Pets must remain on a leash. Food items and trash must be disposed of in garbage receptacles.
Cruiser Bikes		Cruiser Bikes are located at each trailer for your enjoyment. Please note, if you unlock the bikes, you are agreeing to financial responsibility for damages or a replacement cost of \$400. Please refrain from using bikes on highway. They must be returned and locked to the original unit they came from upon departure.
Food Delivery		If you are getting food delivered directly to your trailer, please be sure to mention the "V" in front of your trailer number. This will ensure that the driver finds your trailer's proper location at The Vintages.
